

™ US Size

18-24 months	6.5
12-18 months	5
6-12 months	3.5
0-6 months	2

**Which ScooterBees size?**

1. Align the little heel along the line.
2. Find the size where the longest toe (usually the big toe) lands inside. Measure both feet. Pick the measurement from the longer foot of the two!
3. If the longest toe touches the top line of a size, move to the next size.
4. You got the size!

**Place the little heel here**
